# TERRÉA

A British boutique manufacturer of cleaning products that delivers an integrated scent throughout your apartment and brings a sense of tranquillity and peace to your home.

Made for the moments when caring for your home feels less like a duty and more like a small ritual. Not a test of a perfect house: one corner, chosen today, cared for slowly. A scent you love, some music, a candle lit.

The range is small and deliberate. Laundry and fabric care, kitchen and surfaces, home mists and a scented wardrobe card. Fine-perfumery scents that linger gently, bottles made to be left out, and refill pouches across the core line.

More than clean. Home.
